

UNITED STATES
ATOMIC ENERGY COMMISSION
WASHINGTON 25, D. C.

February 23, 1955

6-6731
Acted by 60/1

2/23/55

Dr. Allen W. Dulles
Director
Central Intelligence Agency
Washington, D. C.

Dear Sir:

On April 19, 1954, on the occasion of a meeting of the Los Angeles World Affairs Council, Chairman Lewis L. Strauss announced the intention of President Eisenhower to arrange for an International Conference of scientists dealing with the peaceful uses of atomic energy. Later that year on December 9, the United Nations meeting in General Assembly proposed that such a conference be called not later than August, 1955. An Advisory Committee composed of scientists from seven nations, including Professor Rabi as U. S. representative, met in New York on January 17-28, 1955, and established the Rules of Procedure and the Topical Agenda. The Conference is to be held August 8-20, 1955, in Geneva, Switzerland.

The Department of State has asked the Commission to be responsible for the preparation of U. S. plans for participation in this Conference. The General Manager has named Dr. George L. Weil, formerly Assistant Director of the Reactor Development Division and presently a Consultant to the Commission, to be responsible for preparing the U. S. planning for participation in this Conference. Dr. Weil will communicate with you shortly regarding suggestions for participation in this Conference by your institution.

Sincerely yours,

W. F. Libby
Commissioner
